

18 Instrument calibration	1011
18.1 Calibration versus re-ranging	1011
18.2 Zero and span adjustments (analog instruments)	1012
18.3 Damping adjustments	1015
18.4 LRV and URV settings, digital trim (digital transmitters)	1019
18.5 An analogy for calibration versus ranging	1025
18.6 Calibration procedures	1026
18.6.1 Linear instruments	1026
18.6.2 Nonlinear instruments	1027
18.6.3 Discrete instruments	1028
18.7 Typical calibration errors	1029
18.7.1 As-found and as-left documentation	1033
18.7.2 Up-tests and Down-tests	1034
18.8 Instrument turndown	1035
18.9 NIST traceability	1036
18.10 Practical calibration standards	1039
18.10.1 Electrical standards	1041
18.10.2 Temperature standards	1043
18.10.3 Pressure standards	1049
18.10.4 Flow standards	1054
18.10.5 Analytical standards	1055
