

## Curriculum POWER Offshore Wind Specific Training

The end product of the POWER activity on cross-sector offshore wind specific training is document [WP3\_6a]: a curriculum, in the form of a set of tables describing available modules, including items as duration, content, learning objectives, target groups and methods. In addition recommendations are given how to combine the modules for a specific target group.

The material can be used as an information source to set-up own courses or, alternatively, to order courses from partners of the POWER team.

In the table below the available modules are grouped in main topics and a cross reference is given of module title and module number.

The curriculum is documented in reference WP3\_6a.
